

# *Changing Lives Through Horses*

Changing Lives through Horses was launched by the British Horse Society in January 2017 with the aim of inspiring disengaged individuals to re connect with society through working with horses.

Here at Field View we are very passionate about the programme and can offer sessions for a variety of group sizes and needs.

1-2 people £45 per person per hour  
3-5 people £35 per person per hour  
6 + people £25 per person per hour

Changing Lives through Horses, helps young people through the magic of horses, allowing them to rekindle the desire to continue within education and training, while simultaneously gaining the tools required to support themselves into a career pathway of their choice.
